SERVING THE CONSTRUCTION INDUSTRY THROUGH EDUCATION, LEADERSHIP AND FELLOWSHIP OF CONSTRUCTION LAWYERS

2009 REGIONAL PROGRAM Fundamentals of Construction Law:

Learn the Basics from the Pros

On November 5, 2009, the ABA Forum on the Construction Industry will present, in five cities across the country, *Fundamentals of Construction Law – Learn the Basics from the Pros*. The concepts covered apply to projects ranging from a single building to complex infrastructure improvements, such as those now emerging from government stimulus efforts.

Taught by leading construction lawyers in each locale, this program presents a unique opportunity for new construction lawyers or experienced lawyers who occasionally practice construction law to learn the essentials from those who practice it daily at its highest levels. The program concisely covers the gamut of construction issues including the roles of the key participants in a project, the structure of project delivery systems, the bidding and construction process, insurance and bonding and dispute resolution. This affordable, conveniently located program provides an excellent way for firms of all sizes to provide an exceptional training opportunity to their lawyers. Tuition includes the *Fundamentals of Construction Law* book, plus lunch and a full day of instruction.
