Larry

Respectfully, I have Brendan working no less than 50 strategic issues for USGBC right now...

Please know that your particular interest will be handled as soon and as efficiently as possible.

I can promise you we want that as badly as you.

Rick

Dear Brendan:

To properly evaluate the report prepared by Steve Taylor, it is necessary to have the same documents he relied on to come to his conclusions. Will you please forward the following documents to us?

LEED Documentation, Preliminary and Final Review
LEED Review, Preliminary and Final Review
Itemized Response to Summary of Allegations and Independent Review dated 12-04-2009
Building Systems Commissioning Plan dated 8-2005
Construction Bulletin # M1 dated 6-9-2005
Construction Bulletin dated 12-7-2009
Engineer's outdoor air calculation spreadsheet "Outside Air Comparison - Wisconsin Code vs. ASHRAE 62-2001" dated 05-06-2005
Engineer's outdoor air calculation spreadsheet "0473-Heat Calc ASHRAE DATA" (not dated, circa 2005)
Email from Tower Mechanical Services (through Mark Hanson) dated 12/9/2009 and 12/14/2009 regarding duct liner and duct sealing standards
Various revisions to the energy model and documentation including 12-10-2009, 12-26-2009, 02-07-2010, 03-26-2010, and 04-05-2010

Horizon did not list the documents they relied on, so we cannot understand the basis for their conclusions. Can you ask them for their list and send copies to us? We do not need a copy of the appeal.
